Media Award for Innovation 2013.

Hamburg/München, 24.08.2013, 15:46 Time

USPA NEWS - DigitalSTREAM receives "Media Award for Innovation 2013 ". Journalists were convinced by the new standard for smart living. Over 100 journalists have decided digitalSTREAM gets ahead of the IFA PREVIEW Award "Media Award for Innovation 2013 "!

Impressed had the participants in the PREVIEW of the known press releases show before the IFA, the innovative smart home solution company: With digital power electrical devices, switches and the building services have their own intelligence and be able to network easily via the existing power line. You can order services or spare parts if needed, give feedback on the status and energy consumption and maintenance intervals. An intelligent terminal block with integrated chip is the basis of this patented innovation.

Of 6 to 11 September 2013 have not only journalists, now all other interested parties the opportunity to inform themselves about the product. digitalPower looking forward to in the TecWatch (Hall 11.1, Booth 12). "With the current digitalPower home gets a new dimension. The house is practically taken out of its digital vacuum and finally finds Following today's world of smart interactive communication, "says Eva Heringhaus, Head of Corporate Communications aizo AG, the inventor of digitalPower. "Technical Progress and digital networking are for people at work, become self-evident when driving a car or sharing with friends.

Only in the house, the clock had been turned back by 30 years. "All the more pleased
Herringhouse" that the fascination of new applications has jumped with digitalStream to the media. "For the live presentation at the IFA itself is digitalStream on the direct visitor experience in the digital home, to show the diverse possibilities of individualization and home networking. About digitalStream: digitalStream is the new standard for electrical installations in buildings. Intuitive to use and easy to install, the system communicates via the existing electrical power lines and thus networked devices in the home. A new quality of housing produced.

digitalStream makes living more comfortable, more beautiful, more energy efficient and easier. digitalStream is the new way of life at home. Through the successful miniaturization and digital intelligence to its digitalStream suitable both for retrofitting and for installation in new and expanded at any time. digitalStream can be operated using existing light switch, via the internet or smartphone. digitalStream is a trademark of aizo ag, inventor of the digitalStream. The company is the first manufacturer of digital power components. The aizo ag sitting in Schlieren-Zurich (CH) and Wetzlar (D). Prof. h.C. Dr. H.C. Natalia Eitelbach of Philosophy of European Science NCLC Institute (USA).
